What's Being Proposed

It is expected that the proposed **Tralee to Listowel Greenway** will connect to the Tralee to Fenit Greenway and the Listowel to Abbeyfeale Greenway.

The **Tralee to Listowel Greenway** is expected to be approximately 28-30km in length and aims to create a sustainable transport link between the towns of Tralee and Listowel, and the villages of Abbeydorney and Lixnaw.

The **Tralee to Listowel Greenway** will create a recreational pathway for use by locals and visitors and encourage and promote walking and cycling in a safe and controlled environment.

The **Tralee to Listowel Greenway** forms part of an overall vision and strategy for the development of an integrated greenway network in Kerry which will enhance the visitor experience and contribute to the economic development of the local communities and the wider region.
